As an independent vehicle history provider, at CARFAX we've made it our mission to tell you everything you need to know by uncovering as many events as possible from the previous life of a used car. Our primary goal is to help you get to know your next car from the inside out before deciding to make an investment that will be part of you and your family's everyday life. We believe your next car shouldn't be hiding anything from you. CARFAX Vehicle History Reports contain over 28 billion historical records from 20 European countries, the US and Canada, which are updated daily with new information. Even if you live in a country we don't collect vehicle data from, it's still always worth checking the Vehicle Identification Number without obligation. The used car import and export market is booming and many owners would be surprised to find out exactly what happened to their vehicle during its previous life abroad. Privacy for Customers — Transparency over Vehicles. Let's be clear: Although we strive to find every detail of a vehicle's life so far, we are focused only on the vehicle's history, and do not collect any information on previous owners. The information we provide relates solely to the vehicle, its odometer reading, any accidents that have been covered up, where the vehicle comes from and much more — it never gets personal. We've uncovered irreparable damage several times in the past, but other times our vehicle history checks draw a blank — and sometimes that's actually a good thing. Second Hand — Not Second Best Did you know that considerably more used cars are sold than new cars? We think this second-hand system is nothing short of fantastic. However, it goes without saying that it gives rise to different methods and tactics: Some sellers will disguise a car that's been in an accident under a fresh coat of paint, tamper with the odometer or conceal theft. This is one of the less appealing aspects of buying second hand. Our goal is to establish trusting relationships between buyers and sellers, since this is the best way to help customers make the right decision. Your new car should be reliable and make you feel safe, as well as make you feel like you haven't paid too much. But more than anything else, we don't want you or your family unknowingly sitting behind the wheel of a vehicle that isn't 100% safe. This is why we strive to take these vehicles off the road, which not only makes the used car market safer but our streets safer too. CARFAX — 35+ Years of Experience in Vehicle Histories CARFAX was founded in the US in 1984 and expanded into Europe in 2007. Around 100 team members spread across six European offices process vehicle information from 22 countries. Fostering strategic partnerships with registration authorities, law enforcement agencies, government departments, insurance companies, inspection centers and numerous other leading companies around the world has enabled us to compile a unique international database for vehicle histories. We use this database to help make the used car market more transparent. We give everyone in the process of buying a used car access to what is currently the world's most comprehensive source for vehicle history reports, and is growing day by day. We remain neutral and independent despite our partnerships — our sole purpose is help customers make an informed choice and ensure their safety and the safety of their family. This includes never collecting any personal details — we do not accept any PII from data sources amongst the information we provide about a vehicle. We ensure that data protection laws are observed at all times. Furthermore, we always collect our data in compliance with legal and regulatory frameworks — in all the countries in which we are active. We expressly distance ourselves from illegal activities such as data theft, scraping and hacking. 2 matches View all 24 photos 1/24 Used 145,810 mi. \$4,299 Home Delivery Virtual Appointments Elite Car Outlet 17 mi. from 60606 17 mi. from 60606 Show details Ext. color: Green Transmission: 4-Speed Automatic Int. color: Tan Drivetrain: Front-wheel Drive Elite Car Outlet review Everyone here was friendly and made me and my girlfriend feel like family. And where most dealerships make promises, they actually make the promises happen. They will be my go-to place for my next purchase. 2005 Chevrolet Malibu Maxx LT review This car I must say, is not at all cute to me.. But overall I love it and don't let this little thang fool you it got power and very good on gas v6 is what I have... back seats recline like front seats more room then you think. 1/1 Used \$3,700 \$200 price drop Home Delivery Virtual Appointments Western Avenue Nissan 9 mi. from 60606 9 mi. from 60606 Show details Ext. color: Galaxy Silver Metallic Transmission: 4-Speed Automatic Int. color: Gray Drivetrain: Front-wheel Drive Western Avenue Nissan review Sell represent Aisha very friendly and courteous. Walked us through the paper work and was very understanding with our needs. I recommend others to have nissan in mind when shopping for a car. 2005 Chevrolet Malibu Maxx LS review I bought this car used. I also bought the warranty with it. I wasn't happy with the dealer. The warranty covered all the repairs that the dealer should have made, but since then the car has been trouble free for the past ten years. Comfortable, easy to drive, excellent driver seat adjustment, great for hauling with the fold down rear seat, plenty of power. The only down side would be rear visibility due to the hatch back configuration, shown (base trim).
